

Methyl Bromide Alternatives Conference:

Field Tours — 2002 Annual Conference

Date: Thursday, November 7, 2002

Time: 10:30 Am — 6:30 PM

Pre-Plant and Post Harvest Field Tours

The sponsors of the 2002 Methyl Bromide Alternatives conference have arranged two educational field tours to be held during the Annual conference in Orlando. The Pre-plant Soil Fumigation Tour will highlight alternatives research at the Gulf Coast Research and Education Center in Bradenton as well as on farm demonstration trials in Tomato, Cut Flowers, Pepper and Strawberries. The Post Harvest and Structural Tour will visit an Irradiation facility, a Flour Mill and will see a Vikane Structural Fumigation site.

Pre-Plant

- Strawberry
- Long Term Rotational Study
- Cut Flowers

Post Harvest

- Flour Mill
- Irradiation Facility
- Structural Fumigation

Methyl Bromide Alternatives Conference:

Please let us know which tour, if any you will be attending. Lunch will be provided so an accurate count of attendees is essential. The registration web site has a box to be completed to indicate your preference.
